UniVision Engineering Ltd
("UniVision" or "the Group")

Contract with Mass Transit Railway (MTR)

UniVision, the AIM listed Hong Kong based designer and installer of digital surveillance and integrated security systems, is pleased to announce that it has entered into a contract with MTR Corporation Limited ("MTR"), the sole owner and operator of the mass transit railway in Hong Kong, to provide maintenance services to MTR's network of CCTV systems, public address systems and passenger information display systems. The contract has a fixed value of HK\$28.9m (approx. £2.15m) over a three year period, commencing on 1 January 2009.

The Group will provide these services on six railway lines in Hong Kong, as well as their related depots and ancillary buildings.

Stephen Koo, Chairman of UniVision commented, "I am delighted that our quality of service and reputation within the surveillance market has enabled us to win such a significant client. Whilst trading in the current environment remains tough, this contract clearly demonstrates that our service meets the strictest performance criteria to ensure safe, continuous and efficient operation of the systems in question."
